MY STUDENTS

There are no students assigned to your parent account. To add students to your account, click on the Manage Students link above followed by clicking on the ADD STUDENT button once the page loads. Enter the information for each student you wish to add.

**\*\* IMPORTANT \*\***  
A parent can have many students assigned to their account, but a student can only be assigned to ONE parent at a time. If you created an account in the past and assigned students, those students must be removed from that account before they can be assigned to a new parent account.
